New Launch

Manufacturer of Dry & Wet Amniotic Membrane Patch

Amnio-Patch™

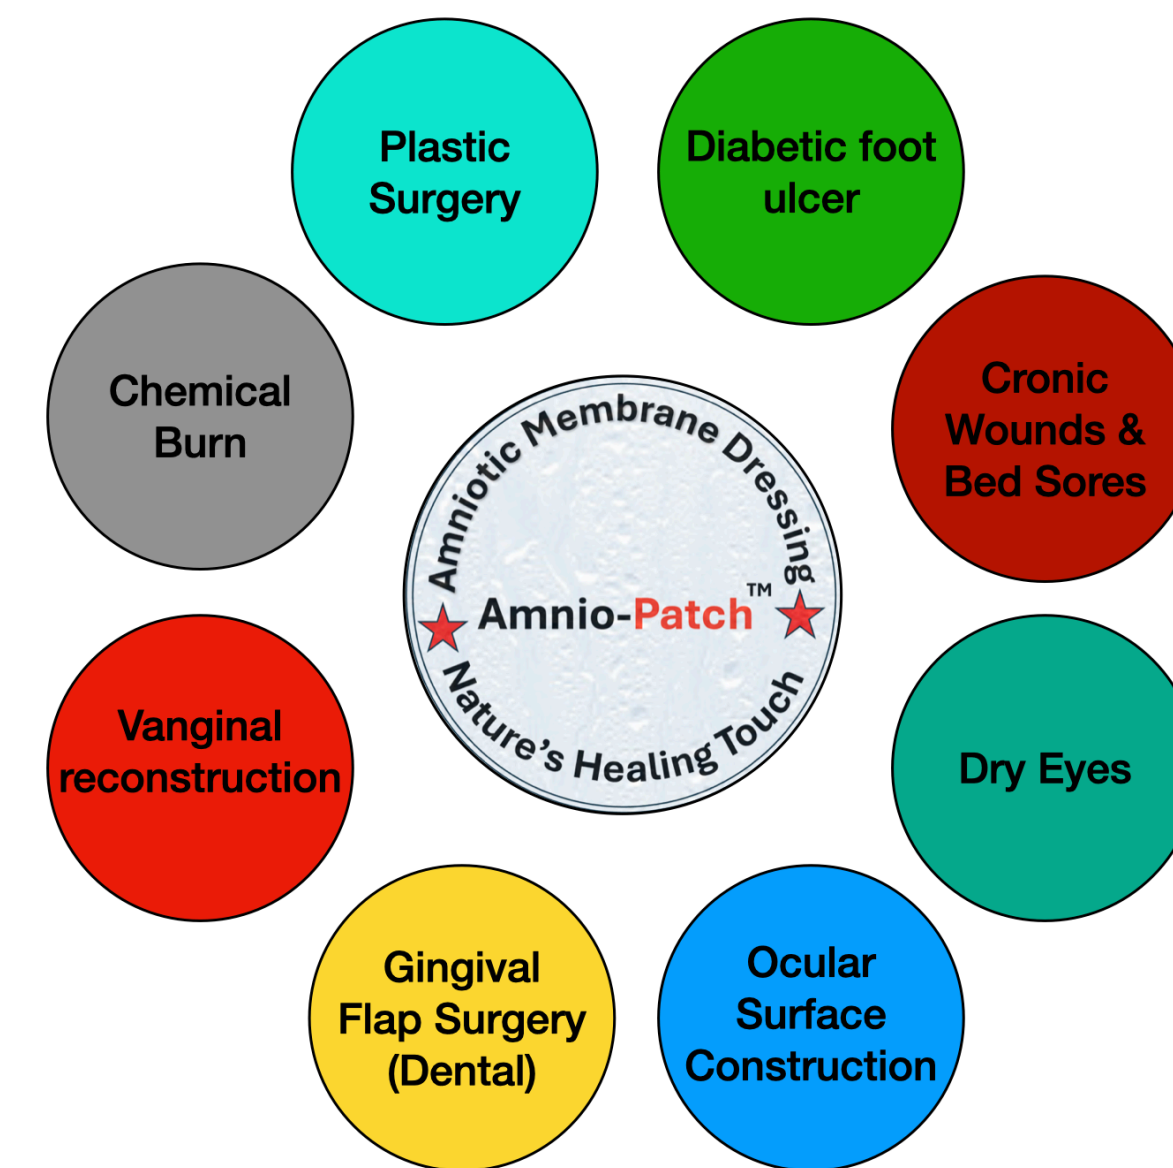

Dehydrated Amnio-Patch for Advance Wound Healing Dressing Patch

Store at room Temperature

- Amniotic membrane is a versatile biomaterial with a wide range of applications across various medical specialties. Its unique properties, including anti-inflammatory effects, promotion of epithelialization, and ability to reduce scar formation, make it a valuable resource in regenerative medicine and wound care. Its clinical use continues to expand as research investigates new applications and optimization techniques.
- **What it is Amnio-Patch :** is a specially processed amniotic membrane that's placed over the eye to help heal and restore it. The amniotic membrane comes from the placenta and contains proteins and growth factors that help with tissue repair. It is cut in Square shapes and specially processed for keeping its property and Gamma radiated, to ensure free from all pathogens.

- **How it works**
Amnio-Patch's natural anti-inflammatory and anti-scarring properties help to reduce inflammation and promote healing.

- Room Temperature stable
- Long Shelf Life
- Having Natural Healing Property of Amniotic Membrane
- No Pre Existing Disease

Sizes: 3X3cm, 5X5cm

Approvals: it is Approved with CDSCO, under State FDA,

Mfg By : Akriti Ophthalmic Pvt Ltd
M34,M35, M36,Medical Devices Park, Sultanpur Village, Pathancheru Mandal, Hyderabad-502319, Telangana State, India
